

### REMARKS

Claims 1-38 continue to appear in this application for the Examiner's review and consideration.

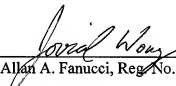

Upon reviewing the file of this application, it was found that the cross-reference to related applications section was inadvertently omitted. This omission is now added by amendment. Support for this change appears on the applicant's signed declaration filed in response to the Notice to File Missing Parts on December 11, 2003.

Also, formal drawings are submitted herewith to facilitate publication and re-printing of the patent. Please substitute these for the current drawings of record.

As no new matter has been introduced, the entry of these changes and substitutions is warranted at this time.

Respectfully submitted,

Date 9/14/07
